PROJECTS

- **Quote Bot | Python**
  Created an unofficial quote bot on kik using Python
  This bot outputs a random quote from json file when triggered by a command

- **Poll web app | Django , Python**
  A simple poll app using Django web framework
  The admin can create a poll and the users can vote them

- **Library Management System|Django,Python**
  A simple library management system was build as a part of our college team project.
  This web application allows the librarian to enter books along with its count.
  Students can log into the web app and search for available list of books.

- **Blog application | Python,Django**
  Created a blog application using Django as a part of django girls tutorial

- **Python-Gsco | Python,Django,Open Source**
  Created a fully functional login bar for the official python gsoc page

- **Fee Management | Shell Script**
  This project was a part of our Operating system team project
  We created a program which keeps track of students admitted and the pending fees.
  These information gets stored in a text file**.**

TECHNICAL SKILLS

Programming Languages	Fluent in Python; Familiar with C++,BASH SCRIPT
Web Development	HTML, CSS, Django,FLASK
Tools	Git

INTEREST

Competitive Programming, Open source, Machine learning, Cyber Security

ACHIEVEMENTS

Secured 2929th place in Kick Start Round A 2019 on March 24th, 2019
